High Energy Show

Discover many of the amazing secrets of heat, electricity, very strong magnets, singing tubes and explosive energy.

Boundless Energy Show

Find out about energy with fabulous games involving light, sound, rainbows, exploding chemicals, blast off with gravity and more.

Fun with Forces

Lots of fun with pushing, pulling, balancing, breaking, spinning ,floating, flying. Are you stronger than air? You might be surprised.

Very Strange Stuff

Explore the materials that make up our world. Adventures with liquids, solids and gases. Flying T-bags and huge bubbles.

Earth and Space

Unlock the mysteries of our earth and weather. Make a tornado, a cloud, blast into space with rockets and lots more.

"We've had Science Alive many times and the children always ask to see the shows again. Mike has a variety of shows that the children love, he always keeps them entertained."
Sacred Heart Vacation Care

"It was great. The children talked about it after and to their parents. The staff found it very entertaining."
Kenwick Child Care Centre
